POSHAN ABHIYAAN: NUTRITION SECURITY THROUGH SYSTEMATIC AND HIGH IMPACT INTERVENTIONS

INTERVIEW

The 5th Rashtriya Poshan Maah is being celebrated from 1st to 30th September 2022. POSHAN Abhiyaan is Government of India's flagship programme to improve nutritional outcomes for children less than 6 years of age, pregnant women and lactating mothers. POSHAN (Prime Minister's Overarching Scheme for Holistic Nutrition) Abhiyaan aims to address the challenge of malnutrition in a mission-mode. Focusing on the aims of POSHAN Abhiyaan, Mission Poshan 2.0 (Saksham Anganwadi and Poshan 2.0) has been launched as an integrated nutrition support program to strengthen nutritional content, delivery, outreach and outcomes with focus on developing practices that nurture health, wellness and immunity to disease and malnutrition.

Speaking with Sidharath Jha for Employment News, Community Health and Nutrition Expert, Dr Chandrakant Sambhaji Pandav, observed that to achieve Poshan and development outcome, it is critical to strengthen coverage, intensity and quality of evidence based high impact Health, Nutrition and WASH (Water Sanitation and Hygiene) interventions via systems and

community health systems, across the continuum of care (from facility to community) during the most critical life stage (1000-day window of opportunity). Dr Chandrakant Sambhaji Pandav is former Head of Community Medicine, All India Institute of Medical Sciences (AIIMS) - popularly known as the 'Iodine Man of India' for his work in the elimination of Iodine Deficiency Disorders. He was conferred with Padma Shri in 2021.

Question: As per the NFHS-5 (2019-21), the nutrition indicators for children

under 5 years have marginally improved as compared with NFHS-4 (2015-16). Stunting has reduced from 38.4% to 35.5%, Wasting has reduced from 21.0% to 19.3% and underweight prevalence has reduced from 35.8% to 32.1%. However, the improvement has been erratic across states and across indicators. In this context, how do you evaluate the Poshan Abhiyaan?

Dr Pandav: Poshan Abhiyaan though launched in March 2018 took a year or so for states to initiate actions on several

components especially ICT-RTM (Information and Communication Technology-Real Time Monitoring), ILA (Incremental Learning Approach), and SBCC (Social and Behavioral Change Communication). Further, guidance for some of the components like performance incentives and innovations was released later in 2019. So, considering this, it would be too early to evaluate Poshan Abhiyaan based on NFHS-5 data which was collected during the initial stages of implementation

With the clarion call of the Prime Minister Shri Narendra Modi, 'Poshan Maah' is being observed in September to improve the nutritional outcome for children, adolescent, pregnant women and lactating mothers across the country and to address the issue of malnutrition on a mission mode. To combat the scourge of malnutrition, collaboration and convergence is required among all stakeholders including the centre and state administrations, local governments, health sector, industry bodies, services sector and the academia. Nutrition professionals play a significant role in the entire web of things aimed at helping the country realize the goal of conquering malnutrition and unlocking the true potential of its human capital.

Nutritionists are professionals who help people struggling with their health to reverse the damage caused to their bodies due to unhealthy or inadequate eating habits. Other than the

CAREER IN NUTRITION HOW TO START AND WHAT TO EXPECT

national mission on Poshan, the following trends indicate a positive demand for nutrition professionals.

Immunity Booster: The COVID-19 pandemic has triggered an unprecedented consciousness among the people about the need for maintaining and boosting immunity so that the body can combat the onslaught of viruses and recover from its after effects. To enhance immunity, the food sector is concentrating on producing food items supple-

mented with zinc, selenium, vitamin C, and vitamin D. Moreover, people are increasingly seeking the professional advice of nutritionists on ways to boost immunity through healthy eating habits.

Mental Health: Given the mental health impact of the

protracted lockdown, focus has shifted to people suffering from stress, worry, and depression. People are increasingly seeking the intervention of professionals in incorporating antioxidants, zinc, magnesium, vitamin B, and other bioactive components that boost mental health in their daily meals.

ACADEMICS

A student of science stream (generally) or from any other stream also, after completing class 12th can pursue B.Sc. in Nutrition and Dietetics which can be followed by an M.Sc. in Nutrition and Dietetics. M.Sc Nutrition and Dietetics has four major types of specialized fields of nutrition which are as follows:

- Clinical Nutrition
- Public Health Nutrition

INDIA'S ENDEAVOUR TOWARDS ACHIEVING NUTRITION SECURITY

Uttara Singh

A well-nourished, healthy and educated population is the foundational prerequisite for growth and economic development. Healthy and productive people have more income, pay more taxes and build a country's capacity to contribute its own resources towards essential services, such as quality education and improved healthcare. The Government of India, through its various ministries, has been running a number of schemes and programs aimed at making healthcare affordable and accessible to all. The government has also adopted a focused approach on ensuring a well nourished and productive population by facilitating and inculcating healthy eating habits among the citizens. For the needy and vulnerable population, the government has devised and implemented targeted schemes to ensure no one is left out of the nutrition agenda. For effective implementation of those schemes, concerted efforts have been made in the recent past to address gaps in actions by the States and to promote inter-ministerial and inter-sectoral convergence to create legislation, policies and programs that aim towards making India healthy, nourished and progressive.

The major schemes are:

AYUSHMAN BHARAT YOJANA

Launched in September 2018, the Ayushman Bharat Yojana aims to provide healthcare (through Health and Wellness Centres) and health insurance facility (through Pradhan Mantri Jan Arogya Yojana) to the poor, at all healthcare levels- primary, secondary and tertiary. The ABY has two sub-missions - (i) Establishment of Health and Wellness Centres (HWCs) - these centres are aimed at improving access to affordable and quality healthcare services at the primary level. These centres provide Comprehensive Primary Health Care (CPHC), covering both maternal and child health services and non-communicable diseases, including free essential drugs and diagnostic services and (ii) Pradhan Mantri Jan Arogya Yojana (PM-JAY) - it provides financial protection to the poor for availing healthcare services at the secondary and tertiary levels.

Citizens with Ayushman Bharat card are entitled for cashless treatment of up to Rs 5 lakh in all government and those private hospitals that are empanelled under the scheme. These hospitals cannot deny treatment to Ayushman Bharat card holders and all pre-existing diseases are covered under it. The scheme covers 3 days of pre-hospitalisation and 15 days of post-hospitalization, including diagnostic care and expenses on medicines. The eligibility criteria are based on the Socio-Economic Caste Census (SECC), 2011. This means that if the family is listed in the SECC database, it is eligible under this scheme.

But, since the SECC happened in 2011, there are many families that might be eligible now but could not be included in that census. In rural areas, such left out families can avail benefit if they fall into at least one of the six deprivation criteria:

- (i) Households with only one room with kuchcha walls and kuchcha roof
- (ii) Households with no adult member between ages 16 to 59
- (iii) Households with no adult male member between ages 16 to 59
- (iv) Household with disabled member and no able-bodied adult member
- (v) SC/ST households
- (vi) Landless households deriving a major part of their income from manual casual labour

In Urban areas, 11 occupational categories of workers are eligible for the scheme:

- (i) Ragpicker
- (ii) Beggar
- (iii) Domestic worker
- (iv) Street vendor/cobbler/hawker/other service provider working on streets
- (v) Construction worker/plumber/mason/labour/painter/welder/security-guard/coolie and other head-load worker
- (vi) Sweeper/sanitation worker/mali,
- (vii) Home-based worker/artisan/handicrafts worker/ tailor,
- (viii)Transport worker/ driver/ conductor/ helper to drivers and conductors/ cart puller/ rickshaw puller, shop worker
- (ix) Assistant/ peon in small establishment/ helper/delivery assistant / attendant/
- (x) Waiter, electrician/mechanic/assembler/repair worker,
- (xi) Washer-man/chowkidar

POSHAN ABHIYAAN

POSHAN Abhiyaan was launched in March 2018, to comprehensively address the problem of malnutrition in the country. The progress made and achievements under POSHAN Abhiyaan are as follows:

- i. POSHAN Abhiyaan covers all the districts of 36 States/UTs.
- ii. State, District and Block level convergence meetings are held regularly.
- iii. Procurement of smart phones and growth monitoring devices has been coordinated through Government e-Marketplace (GeM) Portal.
- iv. A robust Information and Communication Technology (ICT) application "Poshan Tracker" has been conceptualized which is an overarching system, providing facilities, services and inter-linkages, and thereby also promote real time data with analytics.
- v. Approximately 40+ crore Jan Andolan based activities have been conducted since the launch of the Abhiyaan.
- vi. Poshan Pakhwadas and Poshan Maahs have been conducted every year since the launch of the Abhiyaan.
- vii. 26 States/UTs have started implementing more than 50 innovative projects, whereas 30 States/UTs have initiated implementation of Flexi Fund based activities.
- viii. More than 10 lakh frontline Functionaries have been trained on thematic modules following the cascade mode of training at State, District and Block level.
- ix. Community Based Events (CBEs) are organized in a converged manner in Anganwadi Centres with the field functionaries. Around 3.70 crore CBEs have been organized since the launch of the Abhiyaan.

POSHAN Abhiyaan aims to reduce malnutrition in the country in a phased manner, through a lifecycle approach, by adopting a synergized and result oriented approach.

The targets laid down under the Abhiyaan are as under:

S.No.	Objective	Target
1.	Prevent and reduce Stunting in children (0- 6 years)	@ 2% p.a.
2.	Prevent and reduce under-nutrition (underweight prevalence) in children (0-6 years)	@ 2% p.a.
3.	Reduce the prevalence of anaemia among young children (6-59 months)	@ 3% p.a.
4.	Reduce the prevalence of anaemia among women and adolescent girls in the age group of 15-49 years.	@ 3% p.a.
5.	Reduce low birth weight (LBW).	@ 2% p.a.

The estimated number of underweight, malnourished and severely malnourished children under 5 years of age is obtained under National Family Health Survey (NFHS) conducted by the Ministry of Health & Family Welfare. As per the recent report of NFHS-5 (2019-21), the nutrition indicators for children under 5 years have improved as compared with NFHS-4 (2015-16). Stunting has reduced from 38.4% to 35.5%, wasting has reduced from 21.0% to 19.3% and underweight prevalence has reduced from 35.8% to 32.1%.

MISSION POSHAN 2.0

In a strategic shift in the approach to tackling malnutrition, the Poshan Abhiyan, Anganwadi Services and Scheme for Adolescent Girls have been realigned under Poshan 2.0 for the period of FY 2021-22 to FY 2025-26.

Mission Poshan 2.0 an integrated nutrition support program. It seeks to address the challenges of malnutrition in children, adolescent girls, pregnant women and lactating mothers through a strategic shift in nutrition content and delivery and by creation of a convergent eco-system to develop and promote practices that nurture health, wellness and immunity. Key highlights are:

- Poshan 2.0 will bring 3 important program/schemes under its ambit, viz., Anganwadi Services, Scheme for Adolescent Girls and Poshan Abhiyaan. Poshan 2.0 shall focus on maternal nutrition, infant and young child feeding norms, treatment of MAM (Moderate Acute Malnutrition) and SAM (Severe Acute Malnutrition) and wellness through AYUSH.
- It will rest on the pillars of convergence, governance, and capacity-building.
- The mission seeks to optimize the quality and delivery of food under the Supplementary Nutrition Program.
- It aims to contribute to human capital development of the country by addressing malnutrition challenges; promoting nutrition awareness and good eating habits for sustainable health & well-being and by addressing nutrition related deficiencies through key strategies.
- Under the program, nutritional norms and standards and quality and testing of THR (Total Health Record), will be improved and greater stakeholder and beneficiary participation will be promoted besides traditional community food habits.
- Poshan Abhiyan will be the key pillar for outreach and will cover innovations related to nutritional support, ICT interventions, media advocacy and research, community outreach and Jan Andolan.
- Mission Poshan 2.0 will integrate several key strategies to fulfill its objectives, viz., corrective strategies, nutrition awareness strategies, communication strategies and creation of green eco-systems.

Anganwadi Services

Anganwadi Services which was earlier under the ambit of the Integrated Child Development Services (ICDS) Scheme will continue in mission mode under Mission Poshan 2.0. It aims to ensure holistic development of children below 6 years of age and

28th August 2022

HIGHLIGHTS

- On the special occasion of Amrit Mahotsav and Independence Day, we have seen the collective might of the country. There has been a sense of realisation. Such a big country, so many diversities, but when it came to hoisting the tricolor, everyone seemed to act in the same spirit. People themselves came forward, becoming the vanguard of the pride of the tricolor. Our soldiers hoisted the tricolor on the peaks of high mountains, on the borders of the country, and in the middle of the sea.
- Friends, these colors of the Amrit Mahotsav were seen not only in India, but also in other countries of the world. Local singers in Botswana sang 75 patriotic songs to celebrate 75 years of India's independence. What is more special in this is that these 75 songs were sung in languages like Hindi, Punjabi, Gujarati, Bangla, Assamese, Tamil, Telugu, Kannada and Sanskrit. Similarly, in Namibia, a special stamp has been released on the Indo-Namibian cultural-traditional relations.
- A few days ago, I got an opportunity to attend a program of Ministry of Information and Broadcasting, Government of India wherein a screening of 'Swaraj', the Doordarshan serial was organised. The serial is a great initiative to acquaint the younger generation of the country with the efforts of unsung heroes who took part in the freedom movement. It is telecast every Sunday at 9 pm on Doordarshan. And I was told that is going to continue for 75 weeks. I urge you to take time out to watch it yourself and do show it to the children of the house.
- The Azadi Ka Amrit Mahotsav will continue till next year i.e. August 2023. For the country, for the freedom fighters, the writings and events that we have been organising, we have to carry them forward.
- The Rigveda says, "Man-mapo manushi: amritkam dhaat tokay tanayaaya shyamyo: Yooyam Hisatha Bhishjo Matritama Vishwasya Sthatu: Jagato Janitri," which in English means "O water, you are the best friend of humanity. You are the giver of life, food is produced from you, and from you is the well-being of our children. You are the protector of us and keep us away from all evils. You are the best medicine, and you are the sustainer of this universe." The importance of water and water conservation has been explained in our culture thousands of years ago. You will remember, in 'Mann Ki Baat', I had talked about Amrit Sarovar four months ago. After that, the local administration got active in different districts, voluntary organizations came together and local people connected... and lo & behold! the construction of Amrit Sarovars has become a mass movement. When there is a deep feeling to do something for the country, realize one's duties, concern for the coming generations, then the capabilities also get added up, and the resolve becomes noble.
- I have come to know of a brilliant effort from Warangal in Telangana. A new Gram Panchayat has been formed here, named 'Mangtya-Valya Thanda'. There was a place near the village where a lot of water used to accumulate during monsoon. On the initiative of the villagers, this place is now being developed under the Amrit Sarovar campaign. This time due to the rains during the monsoon, this lake has been filled to the brim with water. In Mocha

Gram Panchayat in Mandla, Madhya Pradesh, an Amrit Sarovar is built near the Kanha National Park. The newly constructed Shaheed Bhagat Singh Amrit Sarovar in Lalitpur, Uttar Pradesh is also drawing a lot of people. In Karnataka's Bilkerur village of Bagalkot district, people have built a very beautiful Amrit Sarovar. In fact, in this area, people had a lot of problems because of the water flowing down from the mountain; farmers and their crops also suffered losses. To make the Amrit Sarovar, the people of the village channelized all the water and brought it aside.

- The Amrit Sarovar Abhiyan not only solves many of our problems, it is equally necessary for our coming generations. Under this campaign, at many places, old water bodies are also being rejuvenated. Amrit Sarovars are being used for quenching the thirst of animals as well as for farming. Due to these ponds, the ground water table of the surrounding areas has risen. At the same time, greenery is also increasing around them.
- An interesting project is being run in Bongai village of Assam - Project Sampurna. The purpose of this project is to fight against malnutrition and the method too is very unique. Under this, the mother of a healthy child from an Anganwadi center meets the mother of a malnourished child every week and discusses all the nutrition related information. That is, one mother becomes a friend of another mother, helps her, and teaches her. With the help of this project, in this region, in one year, malnutrition has been eradicated in more than 90 percent children.
- We celebrate the Poshan Maah every year from the 1st to the 30th of September. Many creative and diverse efforts are being made all over the country against malnutrition. Better use of technology and also public participation has become an important part of the nutrition campaign. From providing mobile devices to millions of Anganwadi workers in the country, a Poshan Tracker has also been launched to monitor the accessibility of Anganwadi services. In all the Aspirational Districts and the states of the North East, 14 to 18 year old daughters have also been brought under the purview of the POSHAN Abhiyaan. The solution to the malady of malnutrition is not limited just to these steps - in this fight, many other initiatives also play an important role. For example, take the Jal Jeevan Mission...this mission is also going to have a huge impact in making India
- malnutrition free. Efforts for social awareness play an important role in tackling the challenges of malnutrition. I would urge all of you in the coming nutrition month, to take part in the efforts to eradicate malnutrition.
- Can you imagine, whether song and music and bhajans can also be used to remove malnutrition? This experiment has been successfully done in 'Mera Bachha' campaign in Datia district of Madhya Pradesh. Under this, bhajan-kirtans are organized in the district, in which teachers as nutrition gurus are called. Besides this, women bring a handful of grains to the Anganwadi center and with this grain, a 'Balbhoj' is organized. As a result, besides this increase in the attendance of children in Anganwadi centers, malnutrition has also shown a dip.
- A unique campaign is also going on in Jharkhand. A snake-ladder game has been prepared in Giridih, Jharkhand. Through play, children learn about good and bad habits.
- The United Nations has passed a resolution declaring the year 2023 as the International Year of Millets. This proposal was moved by India and approved by more than 70 countries. Today, around the world, craze for these very coarse grain millets, is rising. When Heads of States come to India, it is my endeavor to get dishes made from the millets for them. And the experience has been that these dignitaries have very much relished them and they also try to collect a lot of information about our coarse grains, about millets. In millets too, just like our culture, a lot of diversity is found. Jowar, Bajra, Ragi, Sawan, Kangni, Cheena, Kodo, Kutki, Kuttu, all these are different varieties of millets. India is the largest producer of millets in the world; hence the responsibility of making this initiative a success also rests on the shoulders of us Indians. Together we all have to make it a mass movement, and also increase the awareness of millets among the people of the country.
- Millets are also beneficial for the farmers and especially the small farmers. In fact, the crop gets ready in a very short time, and does not require much water either. Millet hay is also considered the best fodder.
- Millets contain plenty of protein, fiber, and minerals. Many people even call it a Superfood. Along with reducing obesity, they also reduce the risk of diabetes, hypertension and heart related diseases, they are also helpful in preventing stomach and liver ailments. Millets are also very beneficial in fighting malnutrition, since they are packed with energy as well as protein.
- Along with focusing on research and innovation related to millets, Farmer Producer Organizations (FPOs) are being encouraged to increase the

production of millets. It is my request to my farmer brothers and sisters to adopt millets more and more and benefit from it.

- It feels good to see that many start-ups are emerging which are working on millets. Some of these are making millet cookies, while some are also making millet pancakes and dosa. There are some who are making millet energy bars, and millet breakfasts. I wish all the very best to all the people working in this field. In this festive season, we also use millets in most of the dishes. You must share the pictures of such delicacies made in your homes on social media, so that it helps in increasing awareness among people about millets.
- In Jorsing village in Siang district of Arunachal Pradesh, 4G internet services have started from this year's Independence Day. There has been a new sunrise in the form of 4G in the remote areas of Arunachal and North East; internet connectivity has brought a new dawn. Facilities which were once available only in big cities, have been brought to every village through Digital India. For this reason, new digital entrepreneurs are rising in the country.
- Digital India mission has helped many people become entrepreneurs. Setha Singh Rawatji of Ajmer district of Rajasthan runs 'Darzi Online', an e-Store for tailoring services which has given employment to hundreds of women. Digital India has also turned Om Prakash Singh ji of Unnao, UP into a digital entrepreneur. He has established more than one thousand broadband connections in his village and has also built a free wifi zone around his common service centre, which is helping the needy people a lot. Like the common service center, many such success stories are being seen on the Government e-Marketplace i.e. GEM portal. The internet has also changed the way our young friends study and learn.
- We can learn a lot from the lives of the people living in the hills. The first lesson is that if we do not come under the pressure of circumstances, we can easily overcome them, and secondly, how we can become self-sufficient with local resources. These days in Spiti region, pea plucking is going on. The women of the village gather, and together, pluck peas from each other's fields, which shows that mutual cooperation here is also a part of folk tradition. The best example of utilization of local resources is also found in Spiti. Farmers who rear cows in Spiti, dry up the dung and fill it in sacks. When winter comes, these sacks are laid out in the sheds where the cows live. During snowfall, these sacks give protection to the cows from the cold. After winters, the same cow dung is used as manure in the fields. That is why this area, these days, is also becoming an inspiration for natural farming.
- Many such commendable efforts are also being seen in other hilly areas. In Uttarakhand, many types of medicines and plants are found, which are very beneficial for our health. One of them is the fruit - Bedu or Himalayan Fig. In this fruit, minerals and vitamins are found in abundance. Now Bedu juice, jams, chutneys, pickles and dry fruits have been launched in the market. Due to this, farmers have not only found a new source of income, but the benefits of the medicinal properties of Bedu have started reaching far and wide.

INCOME

The field of nutrition is a versatile one. You can earn according to your skills and experience. The average starting salary of an experienced dietitian can range from average 5 lacs per annum and above. The salary of health and fitness coaches depends on what kind of clients they are dealing with. If you are aiming to work under government and non government organizations, you have wide access to exposure and satisfactory income. Nutrition bloggers can earn in lakhs if the content and quality of their blog reaches optimum number of readers. If you are a freelancer and working with clients on online portals and media, then you have feasibility and flexibility to earn much more since this opens the doors to various kinds of clients offering a wide range of wages.

In a nutshell, the career in nutrition is an emerging field with a lot of opportunities unfolding as the administration as well as the general public are becoming more and more vigilant about health and nutrition and their impact on the country's economy as well as at the individual, family and community level.

Pradhan Mantri Matru Vandana Yojana

Pradhan Mantri Matru Vandana Yojana (PMMVY) is a Centrally Sponsored Conditional Cash Transfer Scheme, implemented across the country with effect from 01.01.2017. The maternity benefit under PMMVY is available to all Pregnant Women & Lactating Mothers (PW&LM), excluding PW&LM who are in regular employment with the Central Government or the State Governments or Public Sector Undertakings (PSUs) or those who are in receipt of similar benefits under any law for the time being in force, for first living child of family. Under the scheme Rs 5,000/- are provided to the eligible beneficiary in three installments during pregnancy and lactation in response to individual fulfilling certain nutrition and health seeking conditions. The eligible beneficiary also receives the remaining cash incentive as per approved norms towards maternity benefit under Janani Suraksha Yojana (JSY) after institutional delivery so that on an average, a woman gets Rs 6,000/-. Cash benefits are provided to pregnant women in their bank account directly to meet enhanced nutritional needs and partially compensate for wage loss. Objectives of PMMVY include the following:

- Providing cash compensation against wage loss so that the mother can take adequate rest before and after the birth of the first living child.
- Promoting good nutrition and feeding practices to reduce infant mortality and malnutrition. It would also promote healthier behaviour among pregnant/lactating mothers.
- Promoting the use of health services and institutional care to reduce the risk of disease.

EAT RIGHT INDIA MOVEMENT

The Eat Right India movement is an initiative of the Government of India and the Food Safety and Standards Authority of India (FSSAI) launched in 2018 to transform the country's food system in order to ensure safe, healthy and sustainable food for all Indians. Eat Right India is aligned to the National Health Policy 2017 with its focus on preventive and promotive healthcare for all citizens of the country with tagline 'Sahi Bhojan. Behtar Jeevan'. Key highlights include:

- It is a pan-India movement aimed to create consumer awareness about eating safe and nutritious food.
- The movement is built on three broad pillars of 'Eat Healthy', 'Eat Safe' and 'Eat Sustainably.'
- As food-borne illnesses and various diet-related diseases cut across all age groups and all sections of the society, the movement adopts a 'whole of society' approach, bringing all stakeholders together on a common platform.
- The vision for 2050 is about creating a culture of safe, healthy and sustainable food for all by making Indian food trans fat-free by 2022 and cut down salt/sugar and oil consumption by 30% in three years.

POSHAN ABHIYAAN: NUTRITION SECURITY ...

of Poshan Abhiyaan. Moreover, impact of nutrition interventions cannot be expected immediately, especially in a situation that was complicated by the direct and indirect effect of COVID-19, it is not fair to evaluate the efforts at this early stage. However, Poshan Abhiyaan has definitely provided the required push to the nutrition agenda in the country, with clear targets and convergent action plans in place.

Question: As you pointed out, the data collected during NFHS-5 should not be taken as the benchmark for evaluating the Poshan Abhiyaan. The NFHS-6 is to be conducted in 2023-24. In the meantime, are there any statistics that may give us a peak into how the COVID-19 affected India's nutrition agenda?

Dr Pandav: COVID-19 pandemic along with its devastating waves have heightened the risk of nutritional vulnerabilities in India through disruption in services, loss of livelihood, increasing food prices and repeated episodes of economic distresses during the pandemic. NFHS-5 does not reflect the impact of the COVID-19 as the majority of data was collected prior to the pandemic. Analysis of Centre for Monitoring Indian Economy (CMIE) data and other studies conducted during the pandemic period reveal large scale job loss and economic hardship caused to people, with daily wage workers, migrant labourers, women workers and small farmers more adversely affected. There were disruptions in the agricultural sector as well with a number of studies reporting supply chain issues, sharp decline in prices of non-cereal agricultural produces due to non availability of markets, in turn causing loss of income and economic hardships particularly for women and small farmers. Food security became a major challenge, with many studies reporting reduction in consumption of food due to economic hardships. Again, this was more pronounced among economically weaker sections of the society. Government initiated various measures to mitigate the crisis through allocation of additional food rations under Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) for families covered under National Food Security Act, increased allocation for Mahatma Gandhi National Rural Employment Guarantee Act (MNREGA) and direct cash transfer to bank accounts of women under Jan Dhan Yojana. However, while these measures provided succour to a large section of the population, yet accessibility was reported to be a challenge by many vulnerable communities like migrant labourers, nomadic and denotified tribes, or by households left out from NFSA safety net due to exclusion or implementation errors. Many studies have shown changes in food consumption pattern with

lower consumption of fruits, vegetables and animal proteins, particularly during the initial phase of the pandemic due to non-availability, non-affordability and misconceptions related to consumption of animal origin foods. Dietary diversity took a backseat particularly during the initial phases of the pandemic. On the other hand, there was also a growing consciousness for consuming nutritious, home-made and "immunity-boosting" food due to the different awareness campaigns from Government and non-Government agencies, including by civil society organizations, media and social media.

Since the lockdown announced in March 2020 during the first wave of COVID-19, most frontline functionaries and health facilities were repurposed for COVID tracing and treatment. This along with the closure of schools and Anganwadi Centres led to disruption in routine health and nutrition services. However, the Government issued various guidelines for restoration and continuity of these services in containment (red), buffer (orange) and areas beyond containment and buffer (green) zones.

Very little information is available of the impact of COVID pandemic on the anthropometric status of children or adults. A few small studies during this period show varied results; while some studies report loss of weight among adults, others have reported to increased BMI. However, these studies are limited by small sample size and cannot be generalized. NFHS-6 might show us the longer term impact of pandemic.

Question: A two-way link exists between malnutrition and poverty, creating a vicious cycle with each fueling the other. So, what kind of convergence in policies is happening or is needed to effectively end this vicious cycle?

Dr Pandav: The issue of malnutrition is quite complex and multifactorial having intergenerational effects. Moreover, poor socio-economic situation tend to perpetuate the problem across generations creating a vicious cycle. So, addressing such a scenario requires multisectoral engagement to address immediate as well as root causes. Convergent programming among several sectors having impact at different levels of determinants is key. Under Poshan Abhiyaan, convergent action plans is key instrument to deliver on this agenda. The programme guidance has laid significant emphasis on mapping the convergent sectors, developing stronger convergent action plans and review under the highest authority within states. This has led to some convergent action at the state and district level. However, there is still a tremendous scope to strengthen convergence among policies and programmes for addressing

malnutrition and its socio-economic impact. Convergence in true sense requires all sectors to come together to deliver all the high impact interventions to the most vulnerable families, keeping the child at the center of the business achieving continuum of care especially during first 1000 days of life.

Question: Every year, the month of September is observed as a Poshan Maah. Several activities are undertaken to spread awareness of nutrition in the community. In this context, kindly elaborate the role of Social Behavioural Change and Communication (SBCC) activities.

Dr Pandav: Malnutrition is closely linked to several behaviors at the household level like hand washing, sanitation, use of safe drinking water, infant and young child feeding practices and influence of traditional practices, practices related to intra-household food distribution, healthcare seeking behaviors, etc. Most of these behaviors are determined by deep rooted family beliefs and practices and go beyond routine delivery of services.

Changing these behaviors at individual, family and community level requires concerted efforts through community mobilization and Social Behavior Change Communication (SBCC). The objective is to address myths and misunderstandings prevalent in the society by creating awareness and raising demand for accessing services. The strategy should be to adopt context specific communication approaches that would enable families to change the behavior sustainably.

Question: Under Poshan 2.0 launched in 2021, States/UTs have been advised to promote use of AYUSH systems for prevention of malnutrition and related diseases. A programme to support development of Poshan Vatikas at Anganwadi Centres to meet dietary diversity gap leveraging traditional knowledge in nutritional practices has also been taken up. How do you see this approach?

Dr Pandav: While involvement of AYUSH and other allied systems to adopt traditional good practices to prevent malnutrition and diseases is well intended, it is critical to systematically build the approach based on available evidence for achieving the results at scale. Poshan Vatikas could provide a good platform for addressing dietary diversity provided it is adopted by every family and the produce is used on daily basis. Building evidence on the traditional knowledge and practices to influence nutrition status is key to further strengthen this approach and to achieve significant results.

Question: One key target of Poshan 2.0 has been leveraging technology to empower the frontline worker with near real time information. In your opinion, has technological intervention made it easy for frontline workers to ensure prompt and preventive action;

rather than reactive one?

Dr Pandav: Use of technology is a game changer in equipping frontline functionaries to deliver services and initiate actions that are well informed. While there are several challenges with regards to procurement, operations and maintenance of the technology solutions, it holds a significant promise of making the business easier for the frontline functionaries. It is also important to use the information on a real time basis to initiate programme actions and take corrective steps, going beyond data collection and upload mechanism.

This year, the objective is to trigger Poshan Maah through Gram Panchayats as *Poshan Panchayats* with key focus on '*Mahila aur Swasthya*' and '*Bacha aur Shiksha*'. The month long events include intensive activities across the country for awareness about nutrition at the ground level through sensitization drives, outreach programmes, identification drives, camps and fairs with special focus on pregnant and lactating women, children below six years and adolescent girls, in order to realise the vision of '*Swasth Bharat*'.

At the Panchayat level, awareness activities are being conducted by local functionaries under the guidance of the concerned District Panchayati Raj Officers and CDPOs (Child Development Project Officers). Poshan Panchayat Committees are working closely with field level workers (FLWs) - AWWs (Anganwadi Workers), ASHAs (Accredited Social Health Activists), ANMs (Auxiliary Nurse Midwife) - to support problem solving and enabling service delivery through Anganwadi Centres (AWCs), Village Health and Nutrition Day (VHNDs), and other relevant platforms to ensure all pregnant and lactating women, children below six years, and adolescent girls receive basic Integrated Child Development services.

Awareness drives on Anganwadi Services and good health practices are also being organised. Growth measurement drives are being conducted to bring more beneficiaries under the ambit of Anganwadi Services. Growth measurement

drives under '*Swasth Balak Spardha*' are being conducted by States with the help of AWWs, AWHs, ASHA, district functionaries and agencies such as Lions Club, Rotary Club etc. Health camps for anemia check-ups are being especially organised at AWCs for adolescent girls. Further, land will also be identified for Nutri-Gardens or 'Poshan Vatikas' at or near Anganwadi Centres (AWCs).

Special focus has been put on the importance of creating awareness about rainwater conservation among women at Anganwadi centers and on traditional foods in tribal areas for healthy mother and child. Under the State - level activities, '*Amma ki Rasoi*' or Grand-mother's Kitchen of traditional nutritious recipes is being organized with extensive efforts to link traditional foods with local festivals during the month. A national level toy-creation workshop is being held to promote use of indigenous and local toys for learning in Anganwadi Centres.

In States/UTs, women and child development departments through Anganwadi workers and helpers and health and family welfare departments through ASHA, ANM, primary health centers, community health centers, school education and literacy department through schools, Panchayati Raj departments through panchayats and rural development through self-help groups etc. are carrying out various thematic activities and spreading the message of the importance of holistic nutrition throughout the month to ensure a healthier future for women and children.

Rashtriya Poshan Maah serves as a platform to bring focus to the discourse of nutrition and good health. In the 5th Rashtriya Poshan Maah the aim is to convert 'Jan Andolan' into 'Jan Bhagidari' to fulfill the Hon'ble Prime Minister Shri Narendra Modi's vision of a 'Suposhit Bharat'.

BEST ENTRY FOR
ISSUE DATED 20 - 26 August 2022

Question: In his recent 'Mann ki Baat' address, Prime Minister Narendra Modi talked about the importance of fairs in Indian culture and how they play a crucial role in keeping the tradition of the country alive. Is any such fair organized in your region? If yes, what is its specialty and significance?

GARIMA KAPOOR

NEW DELHI

Prime Minister Shri Narendra Modi, in his recent address to the nation, emphasised the importance of fairs in keeping alive the age-old Indian culture and traditions. To name a few, Minjar Mela in Chamba, Himachal Pradesh; four-day Samakka- Saralamma Jatara Fair celebrated by the Koya tribal community in Telangana, Maharashtra, Chhattisgarh and Andhra Pradesh; Bhagoria Mela in Madhya Pradesh - are some of the fairs organised and celebrated in India with much pomp and show. Such fairs can provide an important link to youngsters to connect with their roots. Fairs have the capacity to strengthen "Ek Bharat-Shreshtha Bharat." Delhi Book Fair, organised by Indian Trade Promotion Organisation (ITPO) at Pragati Maidan, New Delhi, is a modern version of this tradition and is one of the famous fairs that takes place in my region. The fair consists of all types of books, magazines, maps, teaching aids, computer software etc. It invites avid readers from all walks of life. The Delhi Book Fair holds significance among all the readers who throng the venue with much excitement. The fair also organises cultural programmes for children in the specially designed children's pavilion. The fair has become a platform for sharing views and ideas that enhance literary understanding. Workshops are organised for children and adults. Fairs have the potential to strengthen unity in a diverse society. Participation in such fairs can also widen the thought process and put an end to prejudices, factions and conflicts that prevail in a society. India being a diverse society has a lot of potential to further boost its tourism sector by promoting fairs all around the country with much fanfare.

PM Commissions India's First Indigenous Aircraft Carrier INS Vikrant

Showcasing the country's growing prowess of indigenous manufacturing and a major milestone in the path towards 'Aatmanirbhar Bharat', Prime Minister Shri Narendra Modi commissioned the country's first indigenous aircraft carrier Indian Naval Ship (INS) Vikrant at Cochin Shipyard Limited

(CSL) on 2nd September 2022. During the event, the Prime Minister also unveiled the new Naval Ensign (Nishaan), doing away with the colonial past and befitting the rich Indian maritime heritage. He dedicated the new ensign to Chhatrapati Shivaji. With the commissioning of INS Vikrant, India has entered into a select band of nations having the niche capability to indigenously design and build an Aircraft Carrier. Designed by Indian Navy's in-house Warship Design Bureau (WDB) and built by Cochin Shipyard Limited, a Public Sector Shipyard under the Ministry of Ports, Shipping & Waterways, INS Vikrant has been built with state of the art automation features and is the largest ship ever built in maritime history of India. The carrier is equipped with the latest state of the art equipment and systems.

India's First HPV Vaccine CERVAVAC Launched

Union Minister Dr Jitendra Singh announced India's first indigenously developed vaccine, CERVAVAC for the prevention of cervical cancer on 1st September 2022. Cervical cancer caused by the human papillomavirus (HPV), ranks as the second most prevalent cancers in India and accounts for nearly one-fourth of the world's cervical cancer deaths despite being largely preventable. This affordable and cost-effective vaccine has taken India a step closer to PM Modi's vision of Atmanirbhar Bharat, said Dr Jitendra Singh. CERVAVAC is an outcome of a partnership of Department of Biotechnology (DBT) and BIRAC (Biotechnology Industry Research Assistance Council), the Bill and Melinda Gates Foundation, supported by Serum Institute of India Private Limited.

Smart Solutions Challenge & Inclusive Cities Awards 2022

Union Minister for Housing & Urban Affairs Shri Hardeep Singh Puri presented Smart Solutions Challenge & Inclusive Cities Awards 2022, in New Delhi on 1st September 2022. These awards are an initiative of the National Institute of Urban Affairs (NIUA) and the United Nations (UN) in India to address city-level accessibility and inclusion challenges faced by persons with disabilities (PwD), women and girls, and the elderly. Over 100 entries were received through an open call for applications, out of which the top 10 technology-based innovations were identified as winning solutions after an intensive round of screenings and shortlisting by an eminent 7-member jury panel. These solutions will be instrumental in integrating universal design, which will help achieve SDG target 11.7- to provide safe, inclusive & accessible, green & public spaces for all vulnerable communities. Giving away the awards, Shri Puri observed that assistive technology already has market viability in India and we must capitalise on these trends to build accessible and inclusive urban spaces.

Northcap University to Develop Electric Vehicle-Specific Courses in Sync with Industry Demands

International Centre for Automotive Technology (ICAT) has signed a Memorandum of Understanding (MoU) with the Northcap University (NCU), Gurugram, to enhance the industry-academia partnership for conducting joint short term and mid-term courses and research in the field of Electric Vehicles (EV) and related emerging technology area as per industry requirements. The MoU will allow both parties to design courses to enhance skill development in the automotive segment. Prof Nupur Prakash, Vice-Chancellor, NCU, said, "The summation of the expertise of ICAT in the field of automotive technology along with superior content development proficiency of NCU will result in flexible course packages for interested candidates, thus enabling them to be prepared across multiple fields available in the automotive sector in India."

Former Soviet leader Mikhail Gorbachev Dies

Former Soviet leader Mikhail Gorbachev has died at the age of 91 at a hospital in Moscow on 31st August 2022. According to media reports, his health had been declining in recent years. Mr. Gorbachev became General Secretary of the Soviet Communist Party and de facto leader of the country in 1985. At the time,

he was 54, the youngest member of the ruling council known as the Politburo. He is also known for opening up the then-USSR to the world and introducing a set of reforms at home. After decades of Cold War tension, Gorbachev brought the Soviet Union closer to the West than at any point since World War-II. In fact, Gorbachev's policies of Glasnost and Perestroika defused the soaring tension of the Cold War. Glasnost encouraged Russians and Eastern Europeans to speak out against communism whereas Perestroika was an attempt to modernise and 'rebuild' the Soviet state. He won the Nobel Peace Prize for negotiating a historic nuclear arms pact with US leader Ronald Reagan, and his decision to withhold the Soviet army when the Berlin Wall fell a year earlier was seen as key to preserving Cold War peace. After his demise, the world lost an unparalleled preacher of peace.

IMF agrees to provide US\$ 2.9 Billion to Sri Lanka

The International Monetary Fund (IMF) and the Government of Sri Lanka has reached a staff-level agreement on 48-month, \$2.9 bn Extended Fund Facility which will also help it secure short-term funds from other donors. To avail the fund, Sri Lanka will have to put forward a concrete action plan on debt restructuring and tackling corruption. The Extended Fund Facility will support Sri Lanka's program to restore macroeconomic stability and debt sustainability, IMF said in a statement. Facing the worst-ever economic crisis, Sri Lanka is going through skyrocketing inflation, dollar crunch and devaluation of the local currency mainly due to faulty financial decision-making and extensive loans obtained for many white elephant projects. With a colossal 51 billion dollar foreign debt, Sri Lanka was expected to pay 7 billion dollars in debt serving but defaulted in April this year.

EAC-PM Releases Competitiveness Roadmap for India@100

The Economic Advisory Council to the Prime Minister (EAC-PM) released the Competitiveness Roadmap for India@100 on 30th August 2022. The roadmap is a collaborative endeavour between the EAC-PM and The Institute for Competitiveness. The India@100 roadmap sets guiding principles for India to become a high-income country by 2047 through sector-specific and region-specific policies based on the '4 S' (Social, Solid, Sustainable, and Shared) principles that redefine our approach to attaining prosperity by stressing the need for growth to be matched by 'social progress', to be shared across all regions within India, to be environmentally sustainable, and to be solid in the face of external shocks. By capturing these four important aspects, the '4 S' guiding principles pave the way for resilient and holistic development.

Kalyan Chaubey Elected President of All India Football Federation

Kalyan Chaubey has become the new president of the All India Football Federation (AIFF) defeating the legendary former Indian team captain Bhaichung Bhutia. It is for the first time in AIFF's 85-year-old existence that a former player is holding the post.

45-year-old Chaubey, a former goalkeeper with Mohun Bagan and East Bengal, won 33-1, a result that was expected as former captain Bhutia did not have many supporters in the 34-member voters' list made up of state association representatives. Karnataka Football Association President N A Haris, a sitting Congress MLA, won the election for the lone post of vice president, beating Manvendra Singh of Rajasthan Football Association. Arunachal Pradesh's Kipa Ajay beat Gopalakrishna Kosaraju of Andhra Pradesh for the treasurer's post. All the 14 candidates who had filed nominations for as many executive committee members' posts were elected unopposed.
